

NRPL - Omaha Grainbelt Race and Auction

Several people have asked for a preview of the birds that will be included in my sell-out auction at the Grainbelt Race & Auction. Attached is a first draft of the auction list. A few things may still change, but it should be very close to final. If you've followed my birds over the years, you'll recognize many of the names on this list. Each bird will include a pedigree, photos, and conformation notes, and all but one or two will include a DNA certificate. Between now and the auction, I'll do my best to keep things simple and fair by letting the pedigrees, race records, and auction information answer most questions about individual birds so please don't PM me about the birds at this time.

As I've previously shared, my older breeders are not part of the auction, as they have already been placed with friends.

Absent a few commitments to some club auctions and new flyers, all of the 2026 race birds that return will be sold separately through BestPigeons.com and shipped directly to their loft for auction.

Thank you for your interest, and best wishes to everyone in the upcoming races. 🙏👉
